Why not complete your home with the perfect finish for interiors by decorating your doors, windows, flooring, walls and staircases.

Australian Colonial

MATERIAL: Primed MDF [PMAUSA]

SIZE: 42x12, 67x12, 92x12

Colonial

MATERIAL: Primed MDF [PMCLA]

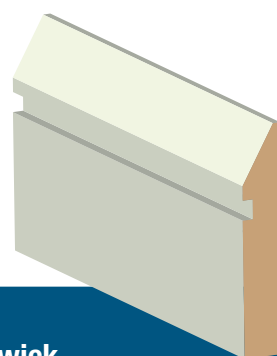

SIZE: 67x18, 92x18, 140x18

Classic Colonial

MATERIAL: Primed F/J Pine [PPCLA]

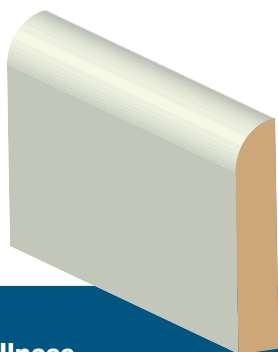

SIZE: 66x18, 92x18

Berwick

MATERIAL: Primed MDF [PMBERA]

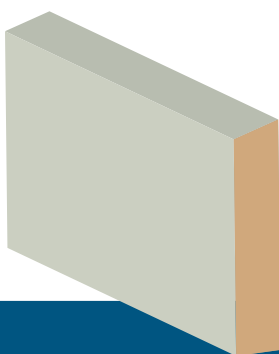

SIZE: 67x12

Bullnose

MATERIAL: Primed MDF [PMBNA]

SIZE: 67x18, 92x18

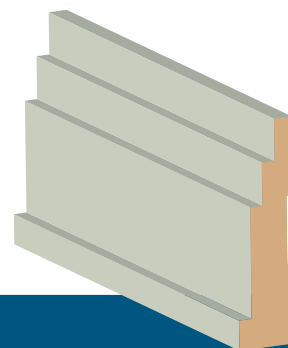

Single Bevelled

MATERIAL: Primed MDF [PMBVA]

SIZE: 42x12, 42x15, 67x12,
67x15, 67x18, 92x12, 92x18, 140x18

MATERIAL: Primed F/J Pine [PPBVA]

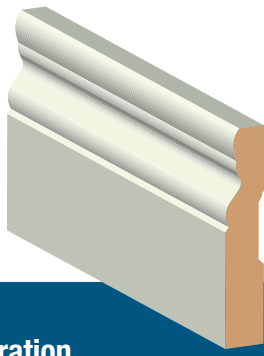

SIZE: 66x18, 92x18

Deco

MATERIAL: Primed MDF [PMDA]

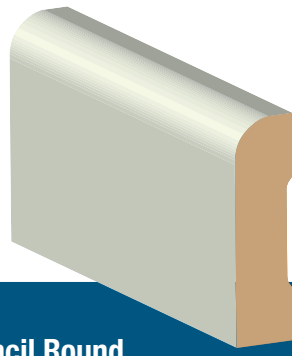

SIZE: 67x18, 85x18, 135x18

Federation

MATERIAL: Primed MDF [PMFDA]

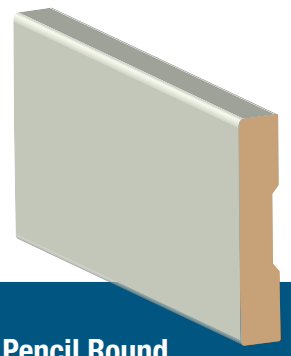

SIZE: 42x12, 67x12, 67x18

Pencil Round

MATERIAL: Primed MDF [PMPRA]

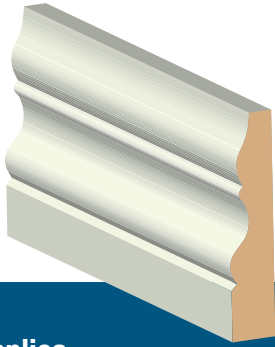

SIZE: 42x12, 67x12, 92x12, 67x18, 92x18

Double Pencil Round

MATERIAL: Primed MDF [PMDPRA]

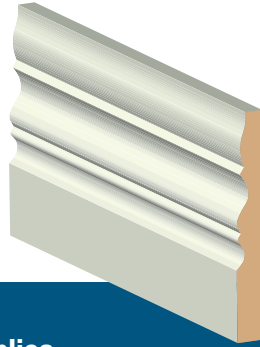

SIZE: 42x12, 67x12, 42x18, 67x18, 92x18

Replica

MATERIAL: Primed MDF [PMRPA]

SIZE: 67x18, 85x18

Replica

MATERIAL: Primed MDF [PMRPA]

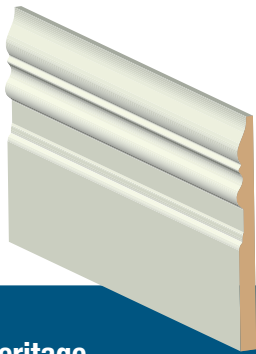

SIZE: 135x18, 180x18

Lambs Tongue

MATERIAL: Primed MDF [PMLTA]

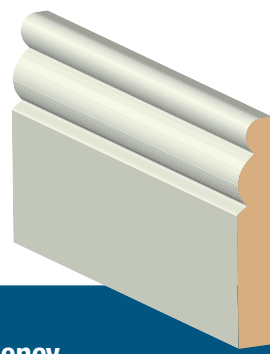

SIZE: 67x12, 67x18, 92x18, 140x18

Heritage

MATERIAL: Primed MDF [PMHRA]

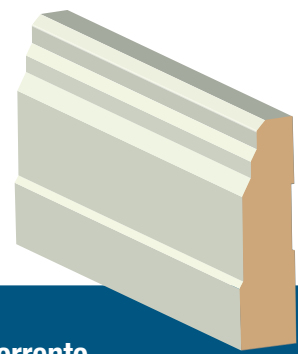

SIZE: 194x18

Regency

MATERIAL: Primed MDF [PMREA]

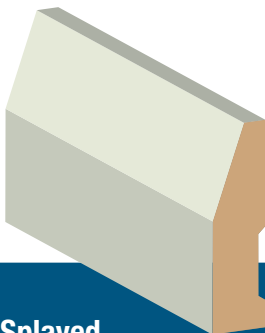

SIZE: 67x12

Sorrento

MATERIAL: Primed MDF [PMSORA]

SIZE: 67x18

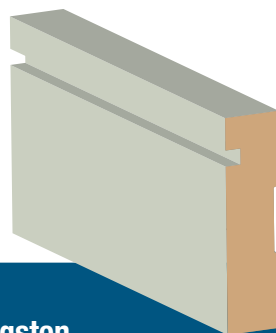

Half Splayed

MATERIAL: Primed MDF [PMHSA]

SIZE: 67x18, 92x18, 140x18

MATERIAL: Primed F/J Pine [PPHSA]

SIZE: 66x18, 92x18

Kingston

MATERIAL: Primed MDF [PMKA]

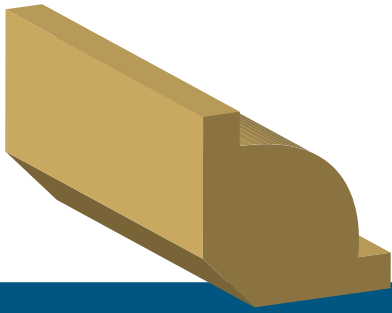

SIZE: 67x18, 85x18

timber species definitions

Architrave designs to suit any architecture period from the traditional to the sleek and contemporary profile.

Achieve the timber look with stain and varnish, or a smooth paint finish with the pre-primed option.

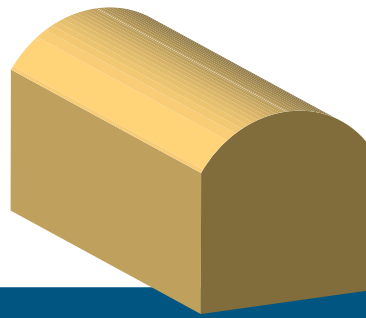

Material	Origin	Colour	Technical
MDF	Medium Density Fibreboard is an engineered timber product formed by the breaking down of softwood and woodchips into wood fibres similar to cotton wool, combining it with a wax and resin binder. Panels are then formed by applying high temperature and pressure. The panels have smooth surfaces on both sides and have an even density profile throughout which makes an ideal substrate to router, groove and profile.	Yellow to brown in colour with a smooth texture.	<p>Raw MDF: Available as is in the raw, without any coating or finish.</p> <p>Primed MDF: The MDF architrave is coated with a primer sealant to make painting easier and help achieve a smooth finish.</p>
PINE	Produced from pine species that is grown in sustainably managed forest plantations. It is classified as a soft wood timber, which is easy to drill, nail and glue. Density of Pine material can vary greatly.	Cream to light straw in colour with a fine but slightly uneven texture.	<p>Raw Pine (unprimed): Pine architrave and skirting boards without any coating or finish. Ideal for painting or staining.</p> <p>Primed Pine: Primed pine architrave and skirting boards are pre primed on the face making them ready to paint. Ideal for many applications including wet areas.</p> <p>FJ Pine: Architrave and mouldings manufactured using Finger Jointed pine are for painting only. A finger joint is when an end joint has wedge shaped projections in one piece of timber, and fit matching recesses on the other piece of timber and is banded together by an adhesive.</p> <p>Treated Pine: This architrave is great for out door use. The pine has been treated with preservatives to increase longevity in outdoor, above ground situations. Treated Pine is also a defence against termites. Usually bright pink in colour, suitable for painting only.</p>
MERBAU	Merbau is classified as a hardwood timber and is suitable for external joinery. It is perfect for staining or clear finishing. This timber is high in Tannin and the colour may vary from pale yellow to orange/brown.	The colour of Merbau differs due to the natural variation of timber.	Merbau is one of the best selections when looking to achieve a stain finish. Can also be painted if required.
TASMANIAN OAK	Tasmanian Oak is classified as hardwood that is a dense and resilient timber that holds nails and screws easily. Usually a mixture of two or more species with similar appearance and features makes up the hardwood species called Tasmanian Oak or also often referred to as Victorian Ash.	Light in colour ranging from yellow straw to reddish browns with shades of cream and pink.	Stains very well allowing colour matching with other timber finishes.

Ovolo

MATERIAL: F/J Pine [POVO]

SIZE: 30x30

Nosing

MATERIAL: F/J Pine [PNOS]

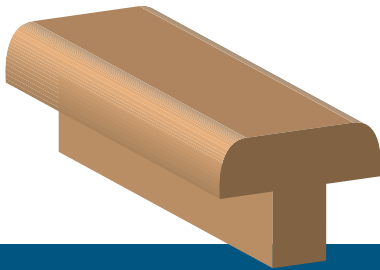

SIZE: 65x32

Dado

MATERIAL: F/J Pine [PDADO]

SIZE: 33x35

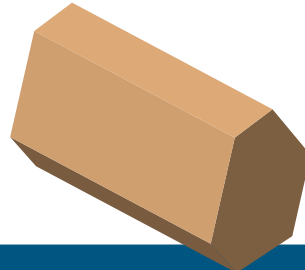

Mushroom Stop

MATERIAL: Tasmanian Oak [HMST]

SIZE: 2100x35x10, 2400x35x10,
2100x37x10, 2400x37x10,
2100x40x10, 2400x40x10
2400x40x15

MATERIAL: Merbau

SIZE: 2400x40x10

Splayed Bead

MATERIAL: F/J Pine [PSB]

SIZE: 12mm

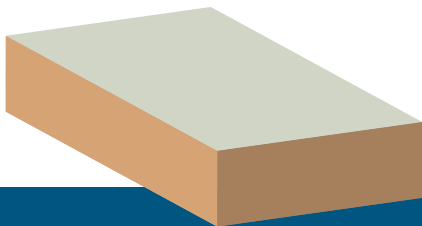

Splayed Bead

MATERIAL: Tasmanian Oak [HSB]

SIZE: 12mm

MATERIAL: F/J Pine [PSB]

SIZE: 18mm

Dressed All Round

MATERIAL: Raw F/J Pine [PDAR]

SIZE: 42x18

MATERIAL: Primed MDF [PMDAR]

SIZE: 30x12, 92x12, 110x12, 135x12,
110x18, 120x18, 140x18, 160x18,
180x18

MATERIAL: Primed F/J Pine [PPDAR]

SIZE: 31x12, 66x18, 92x18, 110x18

MATERIAL: Primed Rubberwood [PRW]

SIZE: 165x18, 220x18
